➔ Please complete as much information as you are able to. It is not necessary to have all of the information to make referral.

1. Is the individual aware of this referral?
2. Is the individual interested in working on clutter issues?
 What service are you referring this individual for?
3. *(Subject to change based on assessment.)*
4. What is the level of risk for this individual?

DESCRIBE: Public Health Director and Building Inspector are giving resident until March 30th to clean up 80% of his home or else he will be potentially evicted from the home.

5. Is the individual currently under pressure from an outside agency(s) to address the condition of their home?
 If yes, what agency? If other, please list.
 If yes, what is the current status?
 If **upcoming inspection**, provide date of upcoming inspection.
 If **failed inspection**, provide date of failed inspection.

ADDITIONAL INFORMATION: As stated above, resident may stay in his home if the house is cleaned up to pass inspection. The town officials are willing to work with him as long as a lot of progress is made.

6. What is the level of risk for the worker?
EXPLAIN: There is a dog that is friendly. Resident friendly. There is a lot of clutter but the house is safe to make progress on. Resident often has a friend (girl friend?) whis present.

7. List all other people living in the home and their relationship to the individual:

NAME	RELATIONSHIP
none	

8. Briefly describe condition of the home: [Click this link to see the Clutter Image Rating \(CIR\). References to the CIR are very helpful.](#)

The home is a 4 according to the "Clutter Image Rating" scale (in every room). Main concern is the electrical chords as resident can no longer reach outlets. There are large extension cords around the house that get stepped on regularly.

9. Are there any pets in the home?

If yes, how many? If yes, what kind? A large dog. He is friendly, likes to be pet. Resident would be happy to put him outside.

10. Are there any insects/rodents in the home?

If yes, what kind? I have not seen mice, but the town officials saw mouse droppings.

If there is a current issue or a history of bedbugs, please describe current status and treatment history.

No.

11. Are there any weapons in the home?

If yes, what kind?

If yes, are they stored safely & securely?

12. Does the individual have family/community support?

If yes, please describe: Resident has support throught the Council on Aging and his friend. He talks to other friends, I have not met them.

13. Is individual receiving/eligible for in-home services? If yes, Status:

If yes, what type? If other, please list:

If homemaking or heavy chore, how many hours per week?

If yes, what agency is providing those services?

Case Manager Name: Phone Number:

14. Does the individual have any known medical issues?

If yes, please list: Unknown the extent of them but they seam relatively serious. Bad wound on back near tailbone. Lots of medical appointments, some last for hours.

Physician Name: Phone Number:

15. Does the individual have any known mental health issues?

If yes, please list: Resident often goes on long tangents that are hard to follow. However, he is pleasant to work with, eccentric, and very intelligent.

Therapist Name: Phone Number:

16. Additional Information: Please include any additional information that would be helpful.

Failed inspection on 11.02.15. On 02.24.16 a representative from the fire department, the health inspector, and the building inspector came to check the progress of the home. They were very displeased at the lack of progress and said they would give himm until March 30th to clean up 80% of the home or he would potentially be taken out of the home. Resident needs help making this progress due to his health condition and the amount of work to be done. It was suggested that some counseling or a slower progress may assist the resident through this difficult process.
